

Benefits and savings of the full house

Recommended to extend the life of all household appliances, to save on detergents and softeners, eliminates the need for anti-limescale products and saves salt thanks to its Upflow or counter-current system. Furthermore, it protects your home's plumbing system by keeping its efficiency high over time.

Economic savings

In addition to saving on detergents, softeners and anti-limescale products, this model also saves salt thanks to its counter-current (Upflow) system.

Damage caused by limescale in the home

Limescale can cause serious damages to your home. The damage is often not visible until it becomes serious. If you live in an area with a high level of water hardness, you are already aware of these problems.

It is recommended for all household appliances because it protects their efficiency over time and reduces the need to use detergents and softeners. Furthermore, it protects the plumbing system by maintaining its efficiency in the long run.

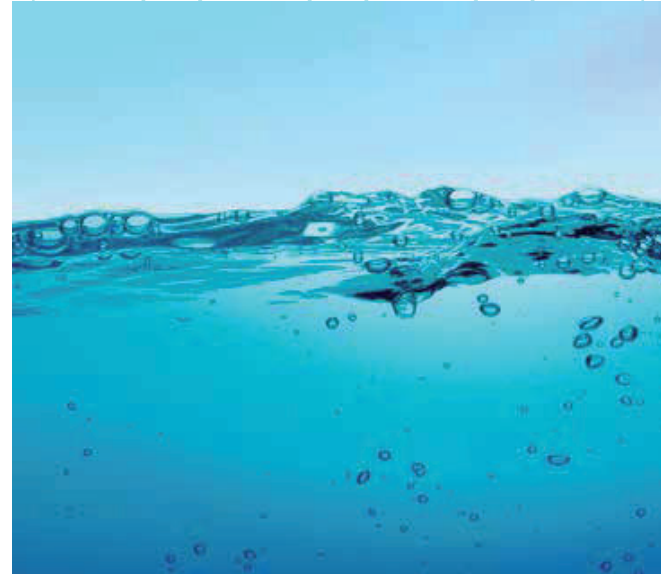

ADVANCED TECHNOLOGY FOR LIMESCALE-FREE WATER

The Full House 42 liter is an innovative water softener. Designed to remove limescale from water in large households and in the HORECA sector (hotels, restaurants, coffee shops, gyms, and laundries).

INNOVATION FOR BETTER PERFORMANCE

With innovative functions:

- Allows you to extend regular use if needed. This model automatically detects when to start a micro-regeneration.
- Holiday mode: if not used for 7 days, it automatically performs the rinse process to avoid water stagnation.
- New water-saving program for families, which can choose “municipal water” or “well water.”

Easy to install and suitable for different spaces.

9V emergency battery
In case of power failure,
it allows regeneration
to complete, ensuring
continuous operation.

Features

FULL HOUSE 42 has been designed to deliver high performance and make the best use of limited spaces.

Weight:	45 Kg
Dimensions:	1,254 x 320 x 489 mm
Resin volume:	42 L
Working flow rate:	2.2 m³/h
Max hardness:	100 °f
Water / salt consumption:	138 lt / 1 kg
Min water temp:	4°C
Max water temp:	39°C
Min dynamic pressure:	2.1 bar
Max static pressure:	8 bar

TABLE OF LITERS ACCORDING TO WATER HARDNESS*:

HARDNESS	15°HF	20°HF	25°HF	30°HF	35°HF	40°HF	50°HF	60°HF	70°HF	80°HF	90°HF	100°HF
LITERS	14,500	14,800	8,700	7,250	6,200	5,400	4,300	3,600	3,100	2,700	2,400	2,100

*For a salt consumption of 96 gr/L.

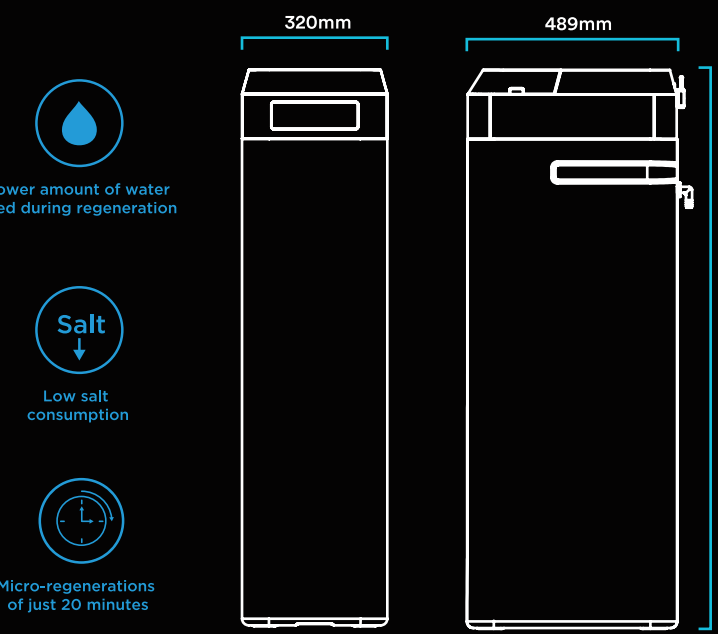

Intelligent Control

This model features an **electronic programmer with multilingual interface** (including Italian, English, French, German, Spanish, Polish, Turkish, and Russian).

Safety and Durability

FULL HOUSE 42 integrates an advanced safety system and high-quality materials to ensure long-lasting performance.

- Overflow valve prevents flooding by stopping large water accumulations.
- Made of high-resistance ABS plastic to guarantee long life.
- High-capacity resin optimizes water flow and minimizes the decalcification process.

HEALTH

A shower in soft water gives you naturally smoother, softer skin.

ENERGY SAVING

Improves performance of hot water devices and heating systems, keeping appliances like new.

CLEANING

Helps keep the house clean. When the water is without limescale, taps, showers, glass, and tiles will always be shiny and like new.

BEAUTY

With soft water you need fewer creams and conditioners, because water without limescale keeps skin and hair shiny and soft.

PROTECTION

Without limescale, softened water doesn't bleach clothes, helps keep their color intensity and softness over time, protecting them from aging.

ECONOMIC SAVINGS

Uses less salt. Also cuts detergent and softener expenses by 50%. No more anti-limescale products needed.
